

Fintech Laboratory

with the support of Spark Startup Center

The Fintech Laboratory is an innovative project of the Department of Accounting and Finance of NTU KhPI

The purpose of the project is to prepare students for the development of startups in the field of finance, accounting, social responsibility of business; providing comprehensive training, hands-on experience and effective pitching preparation skills to attract investment.

Project partners

Spark Startup Center,
NTU "KhPI"

Providing support for
student startups and
supporting innovative ideas.

Ukrainian association of
fintech and innovative
companies UAFIC

A leader in the financial
industry that supports
fintech development
initiatives and youth
educational projects.

Tasks of the project

1

Creation of innovations by students

The purpose of the project is to promote the development and implementation of innovative student startups in the field of accounting, finance, and social responsibility of business.

2

Student support

Providing students with the necessary knowledge in the process of developing startups and preparing for pitching

3

Development of professional skills

The opportunity to gain real experience in creating startups, as well as receiving feedback from mentors and top managers. This provides students with a unique opportunity to learn and develop in a practical field where they can apply the theoretical knowledge they have acquired in the department.

4

Creating an innovative environment

Formation of a stimulating innovative environment for students, which promotes creative thinking, the development of innovative approaches and the discovery of new opportunities in the financial sector.

Help for students

1

Professional communication

Stimulation of cooperation and exchange of ideas between students and teachers. The work takes place in groups of 4-5 students, who must also learn to assign roles in the team

2

Guidelines of mentors

Providing support and guidance of mentors for the development of the startup idea, preparation of the presentation, preparation for pitching

3

Practical help

Providing opportunities for practical application of knowledge in the financial sphere through projects; assistance in the preparation of theses and scientific articles based on the results of the conducted research

Results of the project

Student Projects

Presentation by students of innovative solutions and projects in the field of fintech.

Partnership with companies

Establishing partnerships and cooperation with leading companies in the field of finance and technology. The possibility of receiving an invitation to an internship.
