Cooperation in a research project

Dear Dr. Sokol, dear Prof. Kovalenko,

we intend to submit an application for a project in the call "Supporting the Internationalization of Ukrainian Universities 2019-2021". The application aims to establish a new cooperation between the BTU CS and the University in Kharkiv.

Therefore we would like to ask you to support the application and to provide us with the data for the application. I would be grateful if you would send me some information on

- the university,
- the faculty,
- the professorship,
- contact details of relevant persons and
- the data on the status of digitization at the university and professorship.

Thank you for your support and I look forward to the cooperation.

Yours sincerely

Prof. Dr. Peggy Näser
Professor of Factory planning and Factory management
