Cooperation in a research project

Dear Mrs. Prof. Peggy Näser,

We are very grateful to you for the initiative in establishing the cooperation between Brandenburg University of Technology and National Technical University «Kharkiv Polytechnic Institute».

Your invitation to participate in the project competition «Support of internationalization of Ukrainian Universities in 2019-2021 years» emphasizes possibilities of fruitful cooperation.

Subject to modern tendencies of digitalization of education we would like to propose for the cooperation the Department of Lifting and Transporting Machines and Equipment (Head of department Prof. Kovalenko Valentin, email: potap53@i.ua) and Department of Information Technologies and Systems of Wheeled and Tracked Vehicles named after A.A. Morozov (Head of department Prof. Volontcevich Dmitriy, email: vdo_khpi@ukr.net) of the Institute of Education and Science in Mechanical Engineering and Transport.

The supplemental information is accessible at the site <http://www.kpi.kharkov.ua/eng/>.
In case of need we could give you the information concerning the project.

With best regards,

Rector

Prof. Y. Sokol
