# IT IS A GREAT SUPPORT DURING THE WAR FOR NTU «KhPI»!

Every day in our Kharkiv, air raid alarms sound, the city and the region are shelled. Therefore, the international support of the world scientific community, world-class scientists and the world's leading universities is very important for us. It allows us to hold on, and it is an important factor in our indomitability.

# IT IS A GREAT SUPPORT DURING THE WAR FOR NTU «KhPI»!

The holding of the conference shows that the Kharkiv Polytechnic lives and works to solve the scientific problems of the present and future!
