Ability to formulate the main tasks associated with the implementation of risk management in the organization</p>
Types of classes and control	Lectures, practical classes, consultations. Final control - exam
Term	8

Student workload (credits) / Type of course	5/ Elective	Lectures (hours)	20	Workshops (hours)	20	Self-study (hours)	140
--	-------------	-------------------------	----	--------------------------	----	---------------------------	-----

Learning outcomes	Teaching and learning methods	Forms of assessment (Continuous assessment CAS, final assessment FAS)
LO 02. To keep moral, cultural, scientific values and to increase achievements of society, to use different types and forms of effective activity for maintaining a healthy lifestyle.	Lectures with presentations, discussions, practical classes (seminars, workshops), individual work (abstract, essay, participation in conferences and specialized seminars, work with original research on quality management).	Assessment of seminars (CAS), assessment of tests (CAS), checking of lecture notes (CAS), assessment of individual assignments (CAS), exam (FAS)
LO 03. To demonstrate knowledge of theories, methods, and functions of management, modern concepts of leadership.	Interactive lectures with presentations, discussions, practical classes, case-studies	Written assignment (CAS), practical assessment (CAS), online tests (CAS), exam (FAS)
LO 04. To show skills of identification of problems and justification of management decisions.	Interactive lectures with presentations, discussions, practical classes, students' feedback method, individual tasks, problem-studies	Assessment in practical classes (CAS), problem sheets (CAS), exam (FAS)
LO 05. To describe the content of the functional areas of the organization	Interactive lectures with presentations, discussions, practical classes, students' feedback method, individual tasks, project-method	Written assignment (CAS), practical assessment (CAS), online tests (CAS), exam (FAS)
LO 06. To show skills of search, collecting, and analysis of information, calculation of indicators to substantiate management decisions.	Research method, practical classes, teamwork, case method, student feedback method, individual tasks	Written Individual Assignments (CAS), Assessment of Practical Lessons (CAS), Data Collection and Research Reporting (CAS), Exam (FAS)
LO1.2. To evaluate the effectiveness of supply chain management and to identify areas for optimization	Research method, practical classes, teamwork, case method, student feedback method, case-studies, individual tasks	Written Individual Assignments (CAS), Assessment of Practical Lessons (CAS), Data Collection and Research Reporting (CAS), Exam (FAS)

ASSESSMENT AND GRADING

Range s of points corres pondi ng to grade s	Total score (points) for all types of learning activities	ECTS grading scale	The national grading scale	Allocation of grade points
	90-100	A	excellent	
	82-89	B	good	
	74-81	C		
	64-73	D	satisfactory	
	60-63	E		
	35-59	FX	Unsatisfactory (with the exam retake option)	
	0-34	F	Unsatisfactory (with mandatory repetition of the course)	

100% final assessment in the form of exam (40%) and current assessment (60%).
40% exam: individual task (written) and its oral presentation (30%), answer to the exam (10%)
60% current rating:
• 30% assessment of tasks in practical classes (participation in discussions and situational tasks);
• 30% intermediate control (4 online tests)

Course policy

Students are required to attend classes according to schedule and adhere to ethical behaviour. In case of absence, students will have to complete all tasks to compensate for missed classes. Participation in practical classes requires prior preparation and advance study of all necessary materials for productive discussions during the class. Written assignments must be submitted within the prescribed deadlines.

COURSE STRUCTURE AND CONTENT

Lecture 1	The main issues of quality management. Domestic and international experience in quality management. Basic concept of total quality management	Workshop 1	The concept of quality in the modern sense. Factors that shape and ensure quality..	S e l f - s t u d y	The relationship between product quality and the success and efficiency of the national economy, product competitiveness and national prestige. Quality and development of scientific, technical and social progress.
Lecture 2	Quality management systems	Workshop 2	The main elements of the TQM strategy. Conditions for successful implementation of TQM.		Japanese Material Requirements Planning (MRP) system. Western Reorder Order Planning (ROP) Just-In-Time (JIT) Just-In-Case (JIC)
Lecture 3	Quality system in ISO standards series 9000, 9001	Workshop 3	Quality management system models		Models of quality management systems: Feigenbaum model, Oettinger model, Juran model. General characteristics of ISO 9000 series standards, the evolution of quality standards. Structure of basic ISO 9000 series standards. Organization of works on implementation of ISO 9000 series standards in Ukraine.
Lecture 4-5	Statistical methods of quality control	Workshop 4-5	Statistical methods of quality control. The procedure for collecting information for analysis. Quality control tools: checklist, histogram, scatter plot, stratification method, Pareto chart, causal chart (Isikawa), control chart Schewhart).		Principles of construction and application of quality control tools
Lecture 6	Quality Management Tools and Quality Function Deployment Process (QFD)	Workshop 6	Procedure for collecting source data for quality management tools. Procedure for building and applying tools. Key elements and tools of the Quality function. Quality House Concept and Consumer Voice Tracking Stages in Quality Function Deployment.		Study of lecture and additional material in preparation for practical classes on the topic 6. Abstract presentation.
Lecture 7	Certification of enterprise quality systems	Workshop 7	Stages of certification of quality systems. Register of quality systems, its structure and functions. Certification of quality systems in Ukraine.		Analysis of normative documents on certification of quality systems in Ukraine. International, regional, national - regulatory framework for quality system certification.
Lecture 8	Costs of quality and their classification	Workshop 8	Structure of profits and expenses. Cost classification. Payback of quality costs. Equal costs for product quality. Practical use of quality cost analysis.		calculations, fulfillment of individual tasks
Lecture 9	Accounting for quality costs in terms of TQM	Workshop 9	Algorithm of activity on financing of expenses for quality. The main tasks of measuring the cost of quality. Collection of data on quality costs.		Collection of data on quality costs. Regulatory documents for the collection and analysis of quality costs.
Lecture 10	Quality audit and quality awards	Workshop 10	Types of audits and models of quality assessment. Characteristics of types of quality audits. Reliability of evaluation results. Technology of external audit procedure.		Characteristics of types of quality audits. Reliability of evaluation results. Self-assessment and internal audits.
