

I warmly congratulate professors, teachers, students, graduate students and all the staff of Mechanical Engineering Technology and Metal Cutting Machines Department with the outstanding event - the 90th anniversary of its foundation (1934). Over the decades, your Department has grown into a powerful research center and has become one of the nation's leaders in higher education. The Department's scientific and educational capacity grew piece by piece, thanks to the efforts of instructors, scientists, and organizer's.

Today thousands of highly qualified specialists, prepared at Kharkov National Technical University in the Department of Mechanical Engineering Technology and Metal Cutting Machines successfully work in all fields of Engineering , both in Ukraine and abroad, applying in life the knowledge, generating modern ideas, citizenship, morality, culture and conscience, confirming the high quality brand of their institution.

There is every reason to hope that the Mechanical Engineering Technology and Cutting Machines Department will continue along this path of development, persistently introduce modern scientific achievements, the latest technologies, information systems, and form new citizens, allowing it in the future to occupy a prominent place among the leading Engineering Departments in the country.

I am really proud but at the same time grateful that have been given me the opportunity to complete my studies in the Department of Mechanical Engineering Technology and Metal Cutting Machines.

I wish the team successful work for the benefit of Ukraine, and to each of you good, peace and prosperity.

Kind Regards

Anthoulis Cleanthous
